

**M.S. Graduate Research Assistantship in
Economic and Strategic Analysis of Agroforestry Products
Markets in the U.S. Midwest
at the
University of Missouri**

A Master-level Graduate Research Assistant position is available at the Department of Forestry, School of Natural Resources, University of Missouri. The selected candidate is expected to support ongoing research efforts at the University of Missouri's Center for Agroforestry on the study of regional agroforestry products markets.

The Graduate Research Assistant will collaborate with her/his major professor in ongoing research efforts, interact with agroforestry sector stakeholders, present research findings at professional conferences, and prepare research manuscripts for peer-reviewed journals. The assistantship provides a competitive stipend, a full tuition waiver, and includes health insurance benefits. Funding is available for a two-year program.

The selected candidate will enroll in a Masters program majoring in Forestry. A multi-disciplinary coursework will include classes in Agroforestry, Statistics, Economics, and Marketing. A qualified candidate should have a background in agriculture/forestry, natural resources management, rural development or closely related fields. Strong quantitative skills are highly recommended.

Those interested in the position should outline research interests (500 words max.) and submit a curriculum vitae to:
